

# ACTIVATING PLACES OF CHANGE

Frontline agencies in partnership

## Bridging Funding

In most cases Activating Places of Change funding in 2008/09 will be available for new projects. However, a small amount of funding has been set aside to support projects funded by Activating Places of Change in 2007/08.

Grant recipients from 2007/08 will be eligible to apply for a bridging funding in the following circumstances:

- They have been funding the project out of their own resources or as a result of other fundraising since March 2008 .
- They can demonstrate that they have applied for funds for the project from other sources and are waiting to hear about the results of the application.
- They can show the positive impact that the activity /project has had on service users and the service.
- The project supports and helps to deliver the Places of Change outcomes.

Up to 3 months funding is available if this will realistically help to put a successful project on a more sustainable footing. The bridging funding must be used to support the project in an interim period - it should not be used in addition to other funding, or to replace funds already allocated to the project.

How to apply:

Write a letter of a maximum 2 pages of A4 explaining why your project should receive Activating Places of Change bridging funding. In your letter, you should:

- Explain how the project has been funded since March 08, where you have applied for future funding and what the status of your application is.
- Provide any future plans for the project including showing what the bridging funding will be used for
- Provide a brief update on the impact of your project on service users.
- Explain what you hope to achieve in the next 3 months.
- Include contact details for you and your organisation.

Please send your letter by post or by email so that it will arrive no later than Friday 25 July at 5pm.
