Supporting EEA nationals to get ID

Homeless EEA national often get their ID stolen or lost when they become homeless. However, having valid ID will be necessary to achieve most of the possible routes off the street, mainly to access employment, claim benefits, access housing, accessing health services, returning to home country or making an immigration application. Therefore, services should aim to support EEA clients to replace their national ID.

The main issues to consider are:

- Finding funds to pay consular fees and related costs such as passport photos- some forms of ID might be free of charge for some nationalities- see table below. You could use unrestricted funds or apply for a grant- see grant information below.
- Ensuring the client has the necessary information or documents to make the application and asking for exemptions when relevant. Using a “referee” to confirm their identity might be possible in some cases.
- Making an appointment or having accurate information on opening times, etc.
- Supporting clients with travel expenses when necessary.
- Accompanying clients to the consulate when advocacy is required due to clients’ support needs.
